From Veronica Smith: “Please pray for a **close friend in Wisconsin** who just got a double lung transplant. **Brad** had a disease which was making his lungs get stiff like leather and was affecting his breathing. He was getting worse and had to be hospitalized at UW. A set of lungs became available which were transplanted after a 9-hour surgery. He will be on antirejection meds for life. Please pray that his body accepts these lungs, and he recovers. They lost their daughter a short time ago due to drug use that was tainted with fentanyl. My girlfriend couldn't bear to lose her husband, too. Thank you.”

From Cheri Arras, a message from **Jo Burnett**: “I’m in the emergency room (Saturday pm). My doctor did labs Thursday and today called me to go to the ER. My potassium level is very low. It is now time to drain the oil (oil change) and let the body replace it with the normal vitreous fluid that the body supplies. I will have the procedure on Tuesday April 1st and am praying for successful surgery and recovery. I appreciate all the prayers. God is in total control.”
